Axel supports the Expert Centre for Technology / Experten Zentrum für Technik (Ezt) since beginning of 2024. His areas of expertise are damage investigations, engineering consulting, witnessing and troubleshooting, especially on cranes, control systems and electrical equipment.

Since 2017, Axel is a Certified Testing Expert for the testing of cranes and lifting equipment (ZZP 10074) and since 2021 a Certified Project Management Associate (IPMA Level D).

Axel has been working for EUROGATE Technical Services since 2005 with the following areas of responsibility:
He started at the Container Terminal Port in Hamburg as Maintenance and Project Engineer for container cranes until 2009.

From 2009 to 2012, Axel was part of the EUROGATE project team for the tendering to commissioning of the port equipment for the Wilhelmshaven container terminal.

Since 2013, Axel is a Project Manager for the procurement, construction supervision and commissioning of container cranes. Next to this role, he was an Engineering Consultant for CHCL Container Terminal Port Louis in Mauritius, from 2015 to 2019. And, between 2019 and 2021, he was Process Manager responsible for project management.

He graduated in 2005 from the University of Applied Sciences of Cologne / TH Köln with a Diplom-Ingenieur (FH) of Electrical Engineering degree, specialised in Automation Technology.
